COMPRESSOR MINIBARS

MINIBAR A COMPRESSORE / MINIBARS À COMPRESSION

Find out more

Compressor minibars: ultra silent, eco-friendly and timeless design.

With the latest high-performance compressors, cyclopentane insulation and coolant gas (R600a), these minibars belong to the highest energy efficiency classes on the market, delivering excellent savings in terms of consumptions.

Minibar a compressore: ultrasilenziosi, eco-friendly e dal design sempre attuale.

I compressori altamente performanti, l'isolamento a ciclopentano e il gas di raffreddamento (R600a), attestano queste soluzioni fra le migliori classi di efficienza energetica presenti sul mercato e garantiscono risparmi elevati in termini di consumi.

Minibars à compression: ultra silencieux, Respectueux de l'environnement et un design intemporel

Avec les dernières hautes performances des compresseurs, l'isolation cyclopentane et le gaz réfrigérant (R600a), ces minibars appartiennent légitimement à la plus haute efficacité énergétique sur le marché, offrant d'excellentes économies en termes de consommation.

K ECOSMART LINE

Maximum performance with low consumption.

Thanks to its intelligent and patented compressor management and a cold storage system that maintains a constant temperature overnight, the K ECOSMART line offers extremely low energy consumption. This results in substantial savings and lasting quality, ideal for hotels looking towards the future.

Il massimo della performance a basso consumo.

Grazie alla gestione intelligente e brevettata del compressore e al sistema ad accumulo di freddo che mantiene costante la temperatura durante la notte, il consumo energetico della linea K ECOSMART è estremamente ridotto. Un risparmio netto e una qualità duratura, per alberghi che guardano al futuro.

Performance maximale à faible consommation.

Grâce à la gestion intelligente et brevetée du compresseur ainsi qu'au système de stockage de froid qui maintient une température constante pendant la nuit, la consommation énergétique de la ligne K ECOSMART est extrêmement réduite. Un véritable gain économique et une qualité durable pour les hôtels tournés vers l'avenir.
