# PUTTING BEAUTY INTO TRAVEL

THE CURIOUS BOTANIST

THE SAINT FLUENCER

Dear partner,

A memorable hotel stay is often defined by the details – the small moments that make guests feel welcome, comfortable and genuinely cared for. The products they discover in the bathroom are part of that experience.

At ADA Cosmetics, we help you shape those moments with amenities that suit your property and the experience you want to create. Whether you choose from our portfolio of established brands or develop a bespoke solution, our focus is always on combining quality, design and care for your guests.

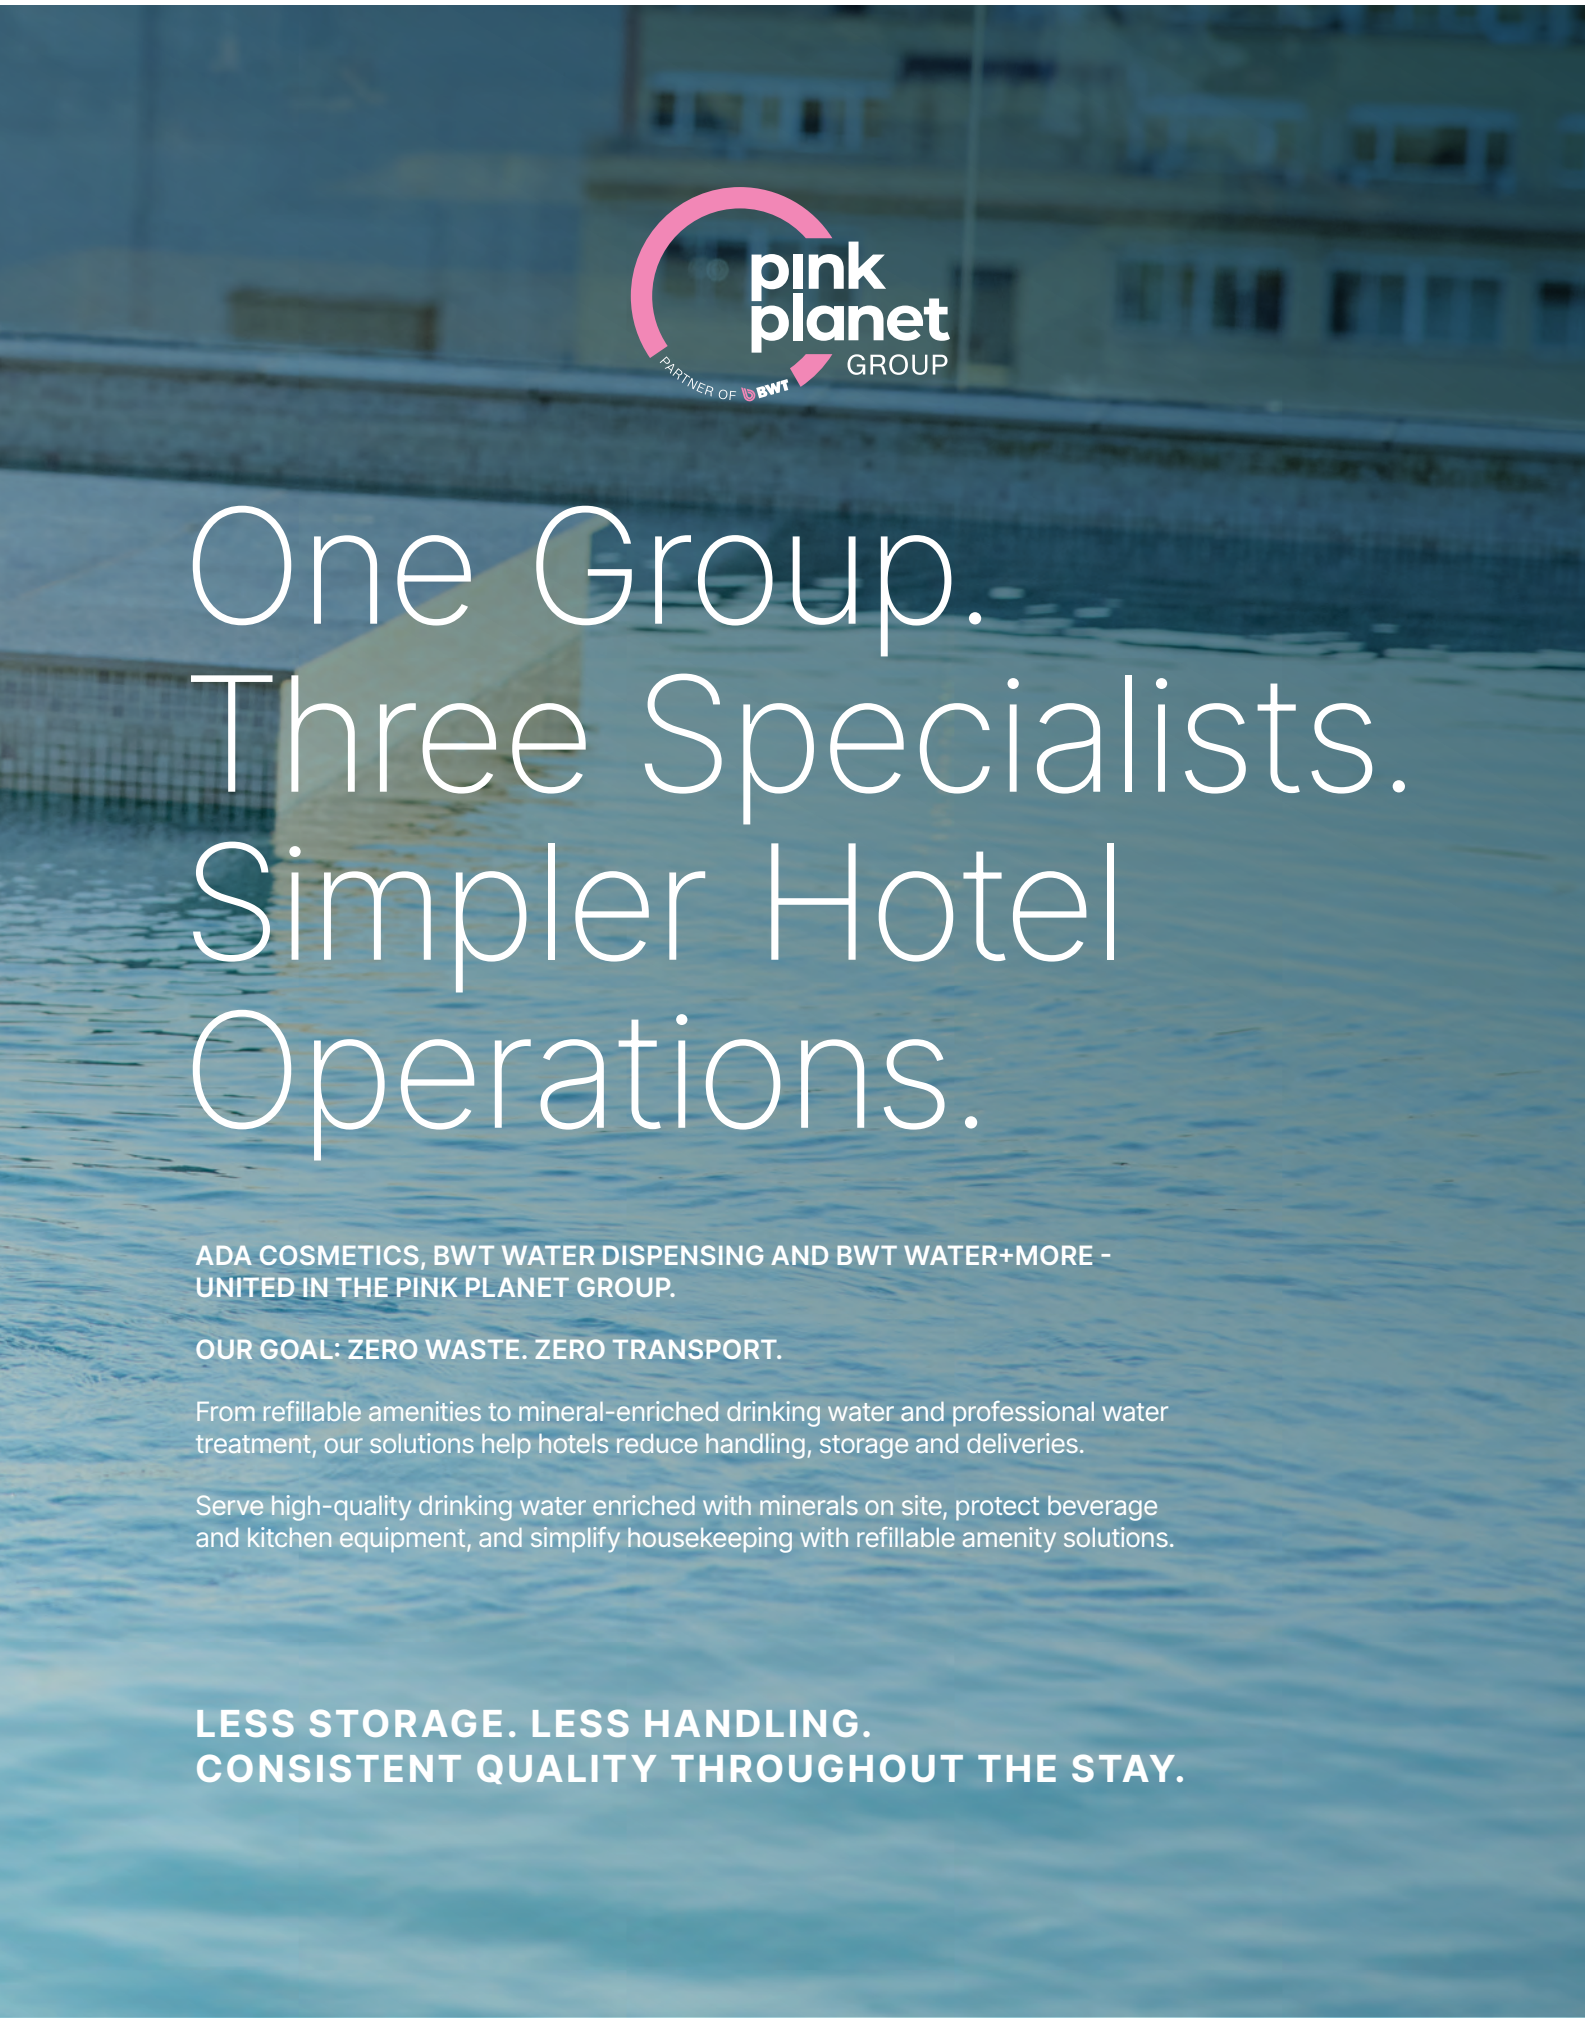

For more than 45 years, we have brought together expertise in body and skincare with a strong commitment to hygiene and sustainability. Our core portfolio is Cradle to Cradle Certified® Silver, while innovations such as SmartCare continue to set new standards for hotel amenities.

As part of the Pink Planet Group, we take this commitment further by connecting expertise in beauty and water. Together, we develop solutions that help hotels deliver a more sustainable guest experience without compromising on comfort or quality.

We invite you to explore this catalogue and discover what fits your property, your ambitions and your guests.
Warmest regards,

Lutz Hübner

Sustainable luxury brings together the design, quality and ease of use your guests expect with more responsible choices for your hotel. With ADA Cosmetics, refillable systems, recyclable components and resource-efficient packaging become a practical part of daily operations.

Refillable systems reduce the need for single-use formats. Mono-material components support easier recycling, post-consumer recycled plastic reduces demand for virgin material, and material-efficient packaging uses fewer resources for every stay.

ADA Cosmetics' core product portfolio is Cradle to Cradle Certified® Silver. This gives you recognised, independent proof behind your commitments and supports your hotel's environmental targets, reporting and certification efforts.
