Ycon

Fridom breaks all design rules, bringing the minibar out of its hiding place and transforming it into a piece of furniture that disregards gravity and finds its place under the spotlight.

Soaring into the sky. Ycon is the suspended minibar with a vertical structure for wall or recessed installation. A composition that optimises the interior space since it doesn't rest on the floor and gets smaller exploiting the Y axis. Ycon comes in two versions: glass door with the opening on the right-hand or left-hand side.
